

COMPANY PROFILE

DAIDAN  
GROUP

**BUSINESS ECOSYSTEM**  
& SYNERGY

**A BRIGHTER FUTURE** FOR INDONESIA.

At DAIDAN , we've built up a diverse but interconnected business network.

Through our subsidiaries, we transport crucial resources like nickel ore and coal, sourced from our mining operations in Kalimantan and Australia.

These commodities provide the catalyst for development, bringing light and energy to communities, and helping to build a brighter future.

Our long-term view also extends to insurance services, delivering peace of mind to our B2B customers and partners.

We envision a future in which people from all walks of life can be proud of their achievements and rise to become frontrunners in their chosen field. From nickel ore and transport to table tennis and sportstainment, we're nurturing the champions of tomorrow.

DAIDAN is more than just a business. We are an ecosystem of self-sustaining ventures, as varied as the homeland we all share. Drawing strength from this diversity, we continue to foster growth, encourage innovation, and deliver the future to Indonesia.

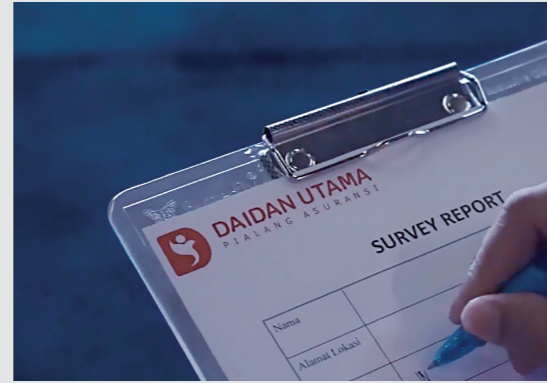

## QUICK RECAP: ON BUSINESS

### SHIPPING

Working through our subsidiaries, DAIDAN owns and charters vessels that **transport nickel ore, minerals, and coal** to terminals and dockyards around Indonesia. Our customers trust us to meet their energy needs. And we always deliver.

- Long Towing
- Time Charter/Freight Charter
- Transshipment
- Primary nickel and coal products
- Mother Vessels

### INSURANCE

We're committed to customer satisfaction. This manifests through our range of insurance offerings – reliable services that provide security and flexibility to our clients.

- Insurance consultation
- Insurance company selection
- Claim settlement
- Data administration processing

### MINING

Our mining operations are primarily **focused on nickel**, a naturally occurring element that is central to the nascent development of more sustainable energy solutions.

- Nickel
- Limestone

### COAL TRADING

DAIDAN sources coal from several mining operations in Kalimantan and Australia, which is then used to supply coal-fired power plants in Sulawesi.

- FOB term, CIF term, DAP term
- Coal sourced from Kalimantan, Sumatra, and Australia
- Domestic sales to power plants all over Indonesia and majority nickel smelter companies in Indonesia

### SPORTSTAINMENT

By blending recruitment and coaching with strategic promotional services, we're becoming a major player in the emergent gaming market.

- Participation in various national and international gaming competitions
- Key Opinion Leader (KOL) services

## SHIPPING

We operate a fleet of more than **100 tugs and barges** and more than **10 bulk dry carriers**, including five supramax vessels, which help us deliver mineral products at competitive prices.

Shipping activities continue to form the core of our business. We're always looking to build from a position of strength.

At the helm of this expansion has been our senior management team. Guided by years of experience, they have built up our fleet through careful acquisitions, charter agreements, and strategic cooperation with our **growing list of partners**.

By using large ore carriers, we've been able to **grow our business and expand our transportation network** to reach other Asian markets, including China.

Looking to the future, our vessels will continue to sail the waters of the Indonesian archipelago, connecting its many corners and bringing development from shore to shore locally and internationally.

## INSURANCE

We are an insurance broker on a mission to **provide insurance options that suit the needs of the customer.** Supported by information technology and with transparency at every step, we offer security and peace of mind.

Our services include risk placement, risk consultation, data administration, and claim settlement. We provide **flexible and responsible solutions** to an ever-expanding network of clients nationwide.

Most importantly, **we listen to our customers.** Our aim is to understand their concerns, their ambitions, and the challenges they face, so we can adjust our insurance conditions to fulfil their required. Ultimately, we want to help them bring their vision for the future into focus.

\*DAIDAN Utama Pialang Asuransi (DUPA) is officially registered with the Financial Services Authority and a member of the Indonesian Insurance and Reinsurance Brokers Association (APPARINDO) since 2020.

## MINING

Our extensive mining operations focus on nickel ore in sites throughout Indonesia. Through a combination of exploration and extraction, we're helping Indonesia harness the power of its natural resources and realize its full potential.

Our main nickel concession is located on Kabaena Island in the Flores Sea, just off the coast of Sulawesi. From this location in the heart of the archipelago, covering a total area of 1,026 hectares, we produce around 2 million metric tons of nickel ore each year and growing.

These mining operations are spearheaded by a pair of subsidiaries within our group.

## COAL TRADING

As your trusted partner in the sourcing and delivering of quality coal, you can rely on us to deliver **effective energy solutions**. We transport coal from sites in Indonesia and Australia, fueling industries throughout the region and providing the spark for development on a national scale.

Combining expertise with a commitment to excellence, we provide integrated coal trading solutions, tailored to your energy needs.

## SPORTSTAINMENT

At DAIDAN, we're always looking to diversify beyond traditional business operations and explore areas where we see potential.

One area with a bright future is sportstainment. Under the umbrella of our newly created ONIC brand, we're already transitioning into the world of sportstainment management.

Now, supported by a team that includes **Mobile Legends, and Free Fire**, DAIDAN is ready to become a major player in the field of sportstainment.
